Subject: [External] Dominion Energy Proposed Rate Increase

Good Afternoon,

I am writing to voice my opposition to Dominion Energy's rate increase proposal Docket No. 2022-52-E. The proposed rate increase would have an adverse effect on my household which already pays over \$300 close to \$400 a month. I work for a public institution and pay rates have not increased to keep up with the current bills. Increasing rates now when we are still trying to recover from pandemic issues is appalling. This is the same stuff SCEG did and they are screwing hard working South Carolinians in an attempt to "recover losses". South Carolina residents are tired of rate increase after rate increase just to line the pockets of a company who posts record profits. We cannot be put on the hook for the failed nuclear power plants, the company bought those debts, putting this burden on residents is a slap in the face to all the residents and politicians of SC.
